*“We know from our Child Trust Fund customers that access to childcare is a key element of financial planning for families. As specialists in family money we are delighted to be engaged in the debate about how the needs of today's parents for accessible and affordable childcare can be met.”*

# Daycare Trust

## Working together for children and families

Daycare Trust has been working for high quality, accessible and affordable childcare throughout the UK for over 23 years. We have been at the forefront of change and have seen our campaigning transformed into Government policy.

Childcare plays a major part in the UK economy. It enables parents to work, and most importantly to lift children out of poverty while giving them the best educational start in life.

Daycare Trust believes that childcare and family friendly policies makes good business sense for the employer, is good for the employees and their children and can contribute to:

- recruiting and retaining staff (particularly specialised staff)
- increase in staff performance and commitment

**Forty per cent of employees have dependent children**

**One in four women now return to work full-time within a year of having a baby**

Daycare Trust corporate membership provides your company with the resources and information that you need to be able to make the difference that benefits your employees and their families.
